# NEW LIFT-A-FILE

RECEIVED  
JAN. 16, 1967

*featuring*  
**adjustable**  
**GRIP-TITE**  
**ARM\***

## **Moves Fully Loaded Files Quickly, Safely, Easily!**

ELIMINATE REMOVAL OF FILE  
DRAWERS OR ADJACENT FILES

ROLL FILES ACROSS CARPETS  
THRESHOLDS; IN OR OUT  
OF GROUPINGS

CANTILEVER ACTION LETS ONE  
PERSON HANDLE OPERATION

### **AT THE TOUCH OF THE HAND...**

the double-acting suction cup firmly grasps and holds top of filing cabinet.\* The Grip-Tite Arm secures cabinet to the truck. Its clutch locking mechanism permits easy adjustability to various cabinet depths. A short downward movement of the lever arm automatically raises cabinet off of floor onto structural frame of truck. Then it becomes a simple operation to roll the cabinet into its new position. Lower cabinet to the floor and roll truck away.

**S & G ENTERPRISES, INC.**

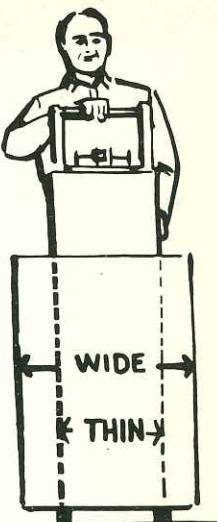

P.O. BOX 2971, MILWAUKEE, WISCONSIN 53218

# LIFT-A-FILE®

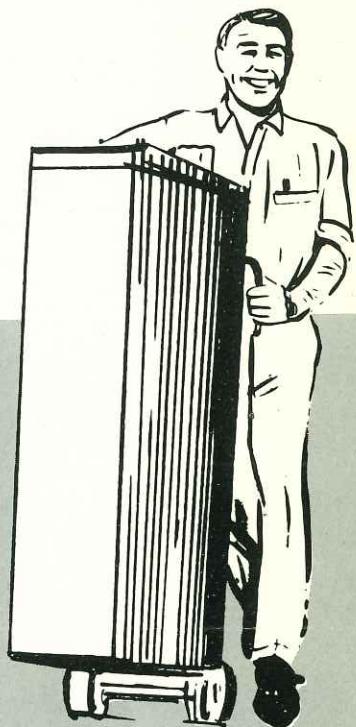

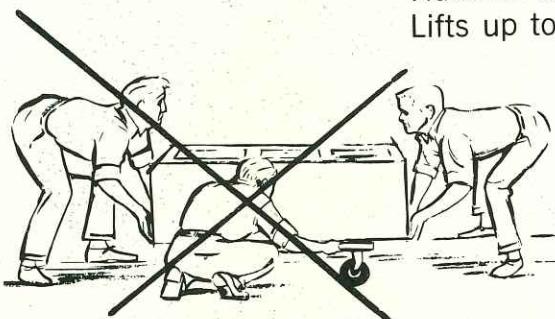

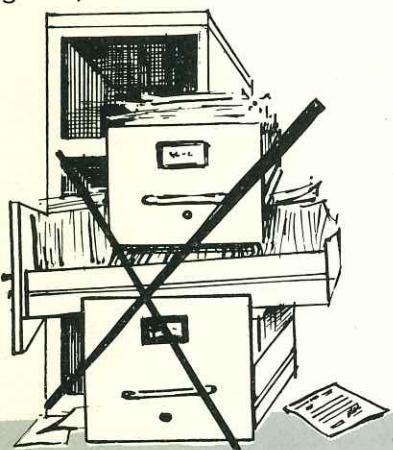

**Makes  
Moving  
Loaded  
Files  
an easy  
One-  
Person  
Operation**

Quickly and simply moves loaded file out of groupings and in and out of tight spots.

Handles almost any size of file up to 64" high.  
Lifts up to 500 lbs.

## OUTSTANDING FEATURES:

- Grip-Tite Arm adapts instantly to infinitely variable depths.
- LIFT-A-FILE easily adjusts to any file cabinet up to 64" high — legal or letter size.
- Easily handles loads up to 500 pounds.
- Semi-pneumatic tires with Ball-Bearing wheels — permit truck to ride over vinyl or carpeted floor.
- Neoprene vacuum plate grasps and lifts file cabinet from top surface, holds it firmly, safely in place.
- Sturdy, all-steel design.
- Lightweight (approximately 55 lbs.) makes it easy to roll about in office.

Only
